

## Report to the Board of General Ministries

It has been my pleasure to continue representing BGM on the Board of International Ministries.

I am a member of the Program and Personnel committee, we have met at IM Board meetings and in virtual meetings as needed. This committee is still working on the Personalized Support Model (PSM) and the Missionary Partnership Teams (MPT). Other items we have discussed are the Care Teams for new missionaries, this involves close contact with new missionaries for the first three months after their arrival on the field. We are looking in some possible ideas for continuing education for missionaries and educational debts.

It has been a time of change for International Ministries. The office has been moved to a new location, and we have had virtual meetings discussing the sale of the Mission Center.

I am looking forward to attending the World Mission Conference in July and the Boards meeting that will follow.
