

*An Epistle of Metanoia*  
from the 2015 Mission Summit to the ABC-USA family

In light of the sin of racism that has infected each and every part of our nation we, the gathered delegates and participants of the 2015 Mission Summit of the American Baptist Churches, USA, the most diverse Protestant body in our nation, grieve racism's effects on our people. Therefore, we collectively speak against and repent of our participation in the sin of racism wherever it is found. The presence of white supremacy for too long has gone unacknowledged and prevented us from living as the body of Christ.

Between now and the 2017 Mission Summit we urge each ABC, USA congregation to covenant in order to seek justice & reconciliation, hold one another accountable in this endeavor, and pursue local incarnated manifestations of the Beloved Community.
