Creator of heaven and earth, Holy and loving God, we thank you for giving us life and salvation. We thank you for creating us as people from Burma. You sent Ann and Adoniram Judson to Burma as the first Baptist missionaries to Burma. You also sent many missionaries in various places of Burma. Many missionaries sacrificed their lives for us. Therefore, many people become believers today. You sent missionaries to Chin hills as well. That is why many Chin people are believers and most of them are Baptists. We thank you for all these. We would like to express our heartfelt thanks to American Baptist for sending missionaries to us. May you use them and use them more.

O Lord, we are saddened by what had happened in Burma today. We are also created by your own image. But there are full of hatred, greed, and self-centered among the people. Please forgive us. We are also bought by your blood. Please give us your salvation, freedom, human right. Please protect those who protest against the military coup from bloodshed, injuries, death by your Holy Spirit. Please make the military know that they are not leaders but to protect the country, so that they may willingly follow the will of the people.

As Adoniram Judson said, “The future of Burma is as bright as the promises of God,” let the future of Burma be as bright as your promises. In Jesus name we pray, Amen!
